

**BAYRAK EBT TABAN**

[www.bayrakebt.com.tr](http://www.bayrakebt.com.tr)

1994 yılında plastik enjeksiyon imalatı ile plastik sektörüne giriş yapan şirketimiz, 1997 yılında taban sektörüne geçiş yapmıştır. Önce PVC taban imalatında büyüyen BAYRAK EBT TABAN, ardından Termo taban imalatıyla kapasitesini büyütüp gün geçtikçe sektördeki yerini sağlamlaştırmıştır.

Gelişen teknolojileri ve müşteri tercihlerini zamanında analiz edip 2013 yılında Türkiye'deki ilk Faylon (EVA) taban tesisini kurarak bir ilke imza atan BAYRAK EBT TABAN günlük kapasitesini 20.000 çift Faylon (EVA) tabana çıkarmıştır. Faylon taban ile kaliteyi, konforu ve rahatlığı ön planda tutarak tabanda yeni bir trendin de önünü açmıştır. Yenilikçi ve özverili taban üreticisi olarak sektöründe 'kalite' ve 'güven ilkeleri ile birlikte bu çalışmalarda vazgeçilmez bir proje ortağı konumuna gelmiştir.

BAYRAK EBT TABAN hizmet ve ürün kalitesi, çözümçül yapısı, termin süreleri hususlarında hassasiyetini müşteri lehine her zaman korur.

## 1 Ton Plastik Ne Kazandırır?

Yeni kurduğumuz Geri Dönüşüm Tesisimizde; Atık malzemeleri fiziksel ve kimyasal işlemler ile hammadde olarak tekrar imalat sürecine kazandırarak

Doğal Kaynakların  
Korunması

Enerji Tasarrufu

Geleceğe ve Ekonomiye  
Yatırım

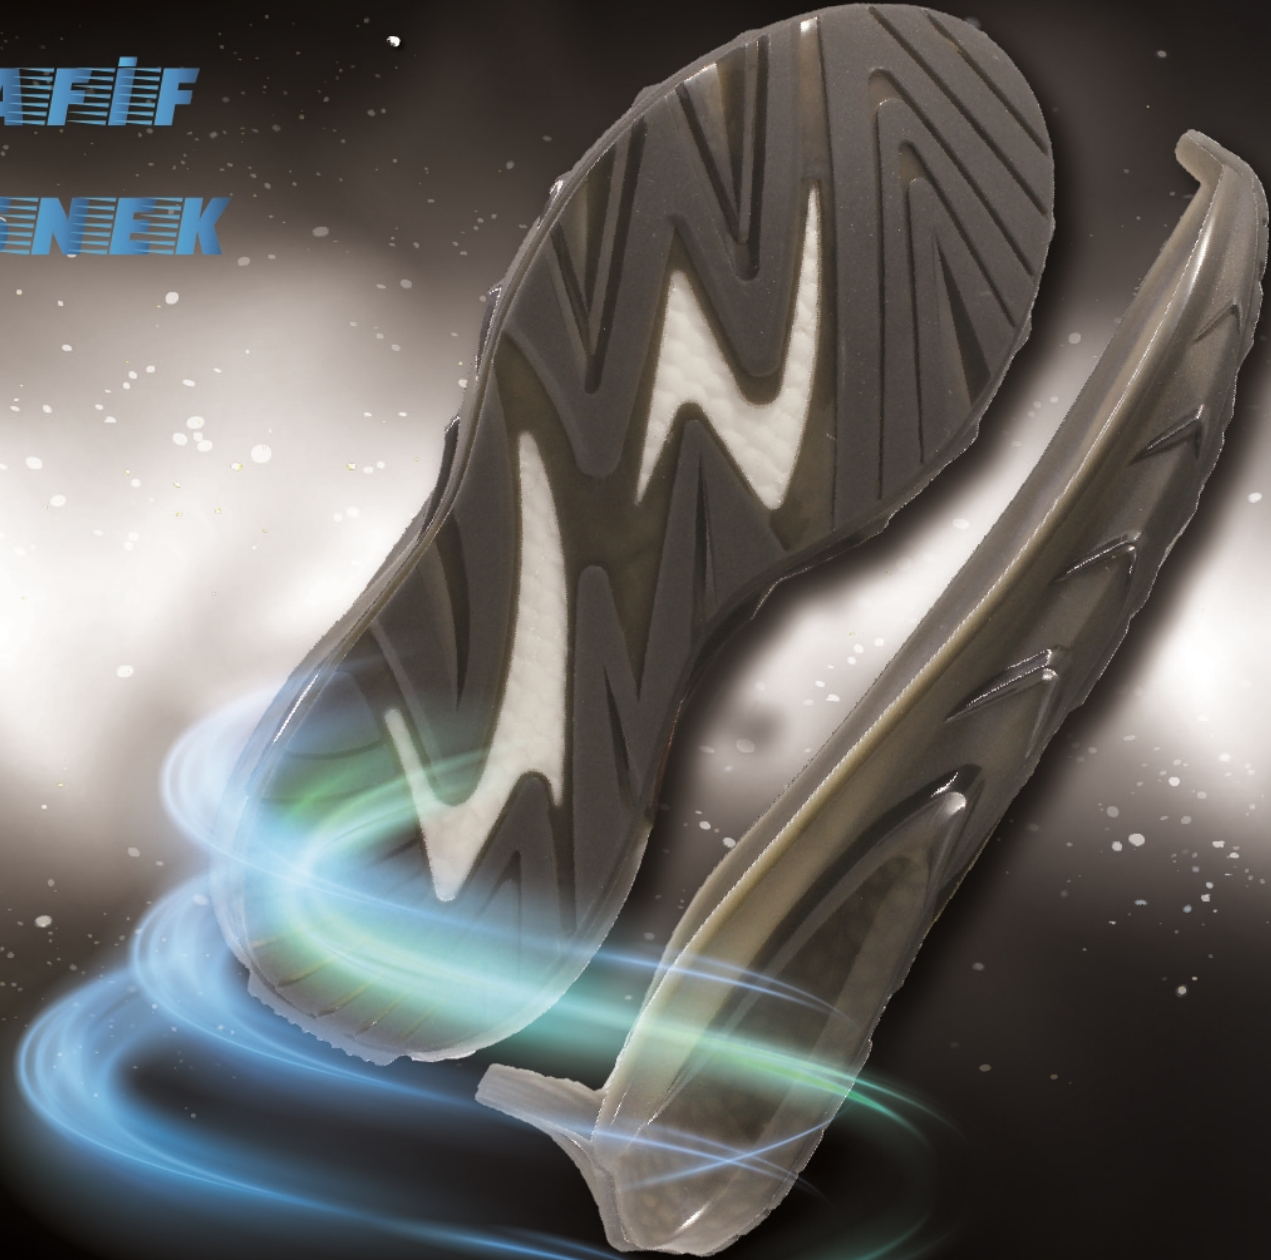

Atık Miktarını Azaltarak  
Çöp İşlemlerinde Kolaylık

Sağlıyoruz ve böylece her 1 TON geri dönüşüm ile 4000 çift taban üretecek atık dönüştürmüş oluyoruz.
